MARYLAND GAZETTE,

Containing the freſheſt Advices foreign and domeſtic.

THURSDAY, *September* 11, 1755.

PARIS, June 2.

THE following is the Sentence paſſed upon Lewis Mandrin, on the 24th of May, and executed on the 26th: We the Commiſſioners, &c. have declared Lewis Mandrin, a Native of Dauphiny, duly convicted of having carried on a Contraband Trade, in an unlawful Aſſembly, and by Force of Arms, during the two Years that he has been obliged to leave his Place of Abode, on Account of his having counterfeited the Coin, and committed Murder; and particularly for having been the Chief of a Gang of eleven or twelve Smugglers, &c. For the Reparation of which, and the other Crimes proved againſt him, we have condemned the ſaid Lewis Mandrin to be delivered to the Executioner of Juſtice, to be ſtript to his Shirt, with a Rope about his Neck, and a Writing affixed to him, containing theſe Words in large Characters, "The Chief of Smugglers, of Crimi-"nals guilty of High Treaſon, of Aſſaſſins, Rob-"bers, and Diſturbers of the Public Peace," holding in his Hand a lighted Wax Candle of the Weight of Two Pounds, before the Cathedral Church of Valence, in Dauphiny, where the ſaid Mandrin, bare-headed and kneeling, ſhall declare with a loud Voice, that he begs Pardon of God, of the King, and of the Officers of Juſtice, for all the Crimes and Villainies by him committed. He ſhall then be taken to the Place of Execution, and there have his Arms, Legs, Thighs, and Back, broken while alive, on a Scaffold prepared for that Purpoſe, and at length be put on a Wheel with his Face turned towards Heaven, where he is to end his Life. After which, his dead Body ſhall by the Executioner be expoſed on the Gibbet of that City. Previouſly to this, the ſaid Mandrin ſhall be put to the Queſtion ordinary and extraordinary by Torture, in order to obtain from his own Mouth the Truth of the Facts mentioned in his Trial, together with the Diſcovery of his Accomplices. We alſo hereby declare all and each of his Goods confiſcated to the King, &c.

Hanover, June 4. The King, notwithſtanding his advanced Age, is every Morning up very early. His Majeſty chuſing to ſacrifice his own Repoſe to that of Europe, is inceſſantly employed in endeavouring to preſerve the Tranquility which it at preſent enjoys.

We are generally of Opinion here, that the King, during his Stay in this Country, will ſee ſeveral important Affairs determined, particularly that concerning his Pretenſions to Eaſt-Frieſland, the Marriage of the Prince of Wales with the eldeſt Princeſs of Wolfenbuttel, and the Election of a King of the Romans.

Bourdeaux, May 27. A Fleet of ten or twelve Ships, with Recruits and Stores, will, in a few Weeks, be ready to ſail from this Port to our Weſtern Colonies; we expect alſo a Convoy from Breſt to accompany theſe Veſſels to the Caribbees.

Nantz, June 1. The Court has lately ſent Orders to the Governor of Martinico, and to thoſe of the other Iſlands and French Colonies in America, to arm all the Ships that can be ſpared out of Trade, and to cauſe them to cruize about thoſe Iſlands, in order to ſecure them from any Surprize on the Part of the Engliſh.

LONDON.

June 12. Laſt Friday a French Family was ſeized by his Majeſty's Meſſengers at Horſleydown, on board a French Trader, bound for Dunkirk, and ſeveral Letters of a very bad Tendency were found ſecreted in a Box on board the ſaid Veſſel, which were ſealed up in order to be examined; and all the Parties taken into ſafe Cuſtody by the Secretary of State's Warrant, on a violent Suſpicion of High Treaſon.

June 13. A hundred Seamen will now compleatly man the Ships at Spithead; which are, The Royal George, St. George, Prince George, Prince, Barfleur, Lancaſter, Monmouth, Warwick, Ipſwich, Buckingham, Elizabeth, Orford, Culloden, Naſſau, Weymouth, Kingſton, Medway, York, Rocheſter, New-Caſtle, Greenwich, Romney, Penzance, and Ambuſcade.

June 14. We hear that ſeveral more Men of War will be ſpeedily ſent to America.

We hear that the Bounty allowed to volunteer Seamen, will be continued for ſome Days; in the mean Time, the Impreſſing Men is continued at the ſeveral Ports.

Yeſterday 6000 Ounces of Silver Coin were ſhipped for Virginia.

June 17. The Ships arrived in Holland, from the Eaſt-Indies, bring Advice of a moſt dreadful Earthquake in thoſe Parts. On Sunday the 18th of Auguſt, 1754, about Four in the Afternoon, the whole Iſland of Amboyna was rocked and ſhaken with the utmoſt Violence; the Earth burſt in many Places, and vaſt Torrents of Water iſſued out; the fine Stone Exchange, the Caſtle, and both the Churches, the Chineſe Cuſtom-Houſe, and greateſt Part of the Hoſpital, were entirely overturned and ruined; all the Stone Houſes tumbled about the People's Ears, ſo that the Inhabitants were forced to erect ſlight Huts in the Fields to keep them from the Weather; the Governor Kluyzenaar was obliged to retire into ſuch a Houſe with the principal Officers of his Garriſon, who by that Means were preſerved. From the 18th of Auguſt to the 22d of September, 85 diſtinct Shocks were felt, by which a Multitude of Perſons of both Sexes have been killed or lamed.

One of the Perſons ſeized laſt Week at Horſleydown, on board a French Trader under Sail for Dunkirk, is Capt. James Menzie, who had a Command in the late Rebellion under old Gordon of Glenbucket.

We hear that 13 additional Men of War, from 20 to 30 Guns, are forthwith to be equipped for Channel Service, by the Way of Precaution.

Several Carriages for Cannon, &c. are preparing in the Tower, to be ſent on board his Majeſty's Ships of War lately put into Commiſſion.

June 19. It is ſaid that one of the Sloops of War, which lately ſailed, is gone to enquire into the Truth of a Report, which has ſome Time prevailed, that the Salletines had declared War againſt the Subjects of this Nation.

This Day Sir Charles Hardy, Knight, ſet out for Portſmouth, to embark there on board his Majeſty's Ship Sphynx, for his Government at New-York.

We hear that in caſe the French ſhould, as reported, fit out Privateers and Letters of Marque Ships in America, to cruize on Engliſh Merchant-Ships, the like will be done on the Part of the Engliſh: In the mean Time it is much queſtioned, whether ſuch Proceedings will not be looked upon as open Hoſtilities, and occaſion a Rupture between principal Powers concerned in the Treaty concluded at Aix-la-Chapelle.

Monday Night arrived an Expreſs from Hanover, with Diſpatches of the utmoſt Importance, relating to the preſent Situation of public Affairs.

HALIFAX, *Auguſt* 9.

We make a moſt grand Appearance in our Harbour, ſuch a Fleet was never before in America; there are Eleven Sail of the Line, with ſeveral ſmall Ships. Admiral Holbourn, with ſix Ships, is cruizing off Louiſburg; and Capt. Rous, with two Twenty Gun Ships and a Sloop, ſailed from hence a few Days ago, on a ſecret Expedition; 'tis thought to diſpoſſeſs the French of a ſmall Settlement in the Weſtermoſt Part of Newfoundland, where we have heard ſome Veſſels from the Continent, have been ſo villainous as to carry Proviſions, from whence the French carry it to Louiſburg. Our Fleet has taken a Snow bound from France to Cape-Breton, loaded with Proviſions; nor will it be poſſible for any of their Veſſels to get in whilſt our Fleet is upon the Coaſt; nor is it unlikely, in Caſe there ſhould be a War, that another Attempt would be made on Louiſburg. We are now upon a great and noble Scheme of ſending the neutral French out of this Province, who have always been ſecret Enemies, and have encouraged our Savages to cut our Throats. If we effect their Expulſion, it will be one of the greateſt Things that ever the Engliſh did in America; for by all the Accounts, that Part of the Country they poſſeſs, is as good Land as any in the World: In Caſe therefore we could get ſome good Engliſh Farmers in their Room, this Province would abound with all Kinds of Proviſions.

Auguſt 17. This Day ſailed out of the Harbour, Three of his Majeſty's Ships of War, in order, its thought, to join Admiral Holbourn.

A few Days ſince, three French Men were taken up and impriſoned, on Suſpicion of having poiſoned ſome of the Wells in this Neighbourhood. They are not tried as yet; and 'tis imagined if they are convicted thereof, they'll have but a few Hours to live after they are once condemn'd.

With the Bleſſing of God, we are at preſent, plentifully ſtock'd with all Kinds of Proviſions; whilſt our Neighbours, the Cape-Bretoners, have felt in a moſt ſurprizing Degree, the Effects of the ſeveral Prohibitions on the Continent, being now in a moſt deplorable Condition for want of the common Neceſſaries of Life, and afflicted with various Kinds of Diſeaſes.

The two French Men of War ſeized and brought in here by Boſcawen's Squadron in June laſt, have now Engliſh Pendants flying, and all their Guns mounted; and the Command of the Lys of 74 Guns, is given to Capt. Amhurſt, who lately commanded the Mars; and that of the Alcide, its ſuppoſed, will be given to the firſt Lieutenant of the Torbay.

The Officers of the Navy, as well as thoſe in the military Service, and every Individual in this Province, were extremely alarmed and ſhocked on hearing of the Defeat of General Braddock; and the Circumſtances attending that unhappy and unlook'd-for Overthrow, ſeemingly exaggerates the whole Affair.

BOSTON, *Auguſt* 25.

Moſt of the Tranſports which carried the Troops from hence to Nova-Scotia, are returned, and have brought with them about 80 Invalids, and ſome others, who have been diſcharged. The Soldiers yet remaining there were generally in good Health, but uneaſy for want of ſome military Employment. 'Tis ſaid they tell their Officers that they entered into the Service to fight, and not to lie unactive in a Camp. Such Men will never be affrighted at the Faces or Yellings of their Enemies.

Friday laſt one of our Schooners came in from the Banks, and by her we are informed, that being in one of the Cape Sable Harbours, a little below Halifax, two of the Men took the Canoe to go on Shore, but juſt as they reach'd it, they were fired upon by ſome Indians, who kill'd one of them, and wounded the other; after which the Indians ran down to ſcalp, but the wounded Man ſuddenly puſhed off the Canoe, and prevented them.

By a Veſſel arrived here Yeſterday from Chignecto, we are informed, that ſome of our People poſted near Bay Vert, obſerving a French Sloop and a Schooner taking in Cattle, got Boats or Canoes and took Poſſeſſion of them, tho' the Frenchmen fired upon them with Swivel Guns, &c. The two Veſſels had 29 Cattle on board, deſigned for Louiſburg, but our People ſaved them the Trouble, by carrying them to Chignecto.----And further, that Colonel Winſlow, with 600 Men, was picking up the French Inhabitants, in order for Tranſportation.

Laſt Tueſday in the Afternoon, at the Aſſizes held at Cambridge, in the County of Middleſex, Phillis, a Negro Woman, and Mark, a Negro Man, Servants to the late Capt. Codman of Charles-Town, deceaſed, who were found Guilty of poiſoning their Maſter, received Sentence of Death;----The ſaid Phillis, to be drawn to the Place of Execution, and there burnt to Death; and the ſaid Mark, to be drawn to the Place of Execution, and there to be hang'd by the Neck till he be dead:----Which Sentences are ordered to be put in Execution upon Thurſday the 18th Day of September.

NEW-YORK, *Auguſt* 25.

Our Intelligences from Oſwego by Letters of the 9th Inſtant, and by ſeveral Perſons arrived from thence laſt Saturday, are to the following Effect, viz. That Col. Schuyler, with his Diviſion and Artillery, arrived there three Days before: That General Shirley was expected to be there as laſt Wedneſday, having been met on the Road by ſome of the Perſons come to Town, not far from the Fort: That they expect to be in Motion for Niagara ſoon after his Arrival; that they had 200 Men employed on the Works laid out, which were forwarded with ſurprizing Diſpatch: And, that the Oſwego Man of War, and one other of the Veſſels built on the Lake, had been out on a Cruize for ſeveral Days; but had not met with any of the Enemy.

We hear from Lime, in Connecticut, that Capt. Mather arrived there on the 18th Inſtant, in ten Days from Halifax, and reported, that the Fleet under the Command of Admiral Boſcawen was continually going out and in there, from their Cruize off of Louiſburg; and that a few Days before he ſailed, Admiral Holbourn ſent in a French Snow of 200 Tons, laden with Flour, Pork, Butter, &c. which he took going into the Harbour of Louiſburg, and on board of which they found ſeveral Packets of great Conſequence: He likewiſe ſent in a large French Schooner laden with Melaſſes, Rum, and Sugar, which the French ranſomed for 1200l. Sterling, when

when they were permitted to proceed on their Voyage for Cape-Breton.

A Letter from Charles-Town, dated the 13th Inſtant, ſays, "We have an Account of ſome Deſigns of the French "on Georgia, and this Province; the Particulars I ſhall in-"form you of in my next."

Extract of a Letter from Albany, dated Auguſt 18, 1755.

"Theſe are to acquaint you, that Major-General Johnſon, with his Train of Artillery, is got ſafe to the Carrying-Place; from whence Capt. Gilbert came Yeſterday, and is going to Boſton, in order to ſolicit for 1000 more Oliverians, to aſſiſt thoſe of their Countrymen, that are going againſt Crown-Point, as the Forces now under the Command of Major-General Johnſon, is not thought ſufficient to reduce that Fortreſs, which, 'tis ſaid, is now garriſoned by a large Body of Regulars from Canada. Major Lyman has cleared 8 Miles of a Road on the Carrying-Place, and the remaining 16 will be cleared with the greateſt Diſpatch, at the End of which they intend to build a Fort, as well to cover the Troops in Tranſporting their Artillery, &c. over that important Paſs, as to ſerve as a Place of Retreat. By the Time that the Fort is compleated, 'tis expected the Boſton Men will arrive; for, to their Honour be it ſaid, that Province excels all others on the Continent, for Diſpatch in military Affairs."

P. S. By ſome Carpenters that are juſt come from Oſwego, we learn, that the third Veſſel was launched the 7th Inſtant; and that the laſt would be launched about the 22d Inſtant.

September 1. Our Accounts from the two Camps to the Northward, dated between the 20th and 24th of laſt Month, run thus.----That General Shirley arrived at Oſwego the 20th of Auguſt paſt, in good Health: That Col. Mercer paſſed the Carrying-Place the ſame Day, with all the Baggage, ſave a few Pieces of Cannon, and were expected to join the General the 28th: That two of the Veſſels on the Lake had been out on another Cruize, one of which it is ſaid, had gone within Sight of Niagara, and made her Obſervations: That between 150 and 200 Indian Warriors went through Albany the 21ſt, to join General Johnſon, and that another Body of much about the like Number of Indians were met on their March for the General's Camp the 24th: That the 500 New-Hampſhire Forces left Albany on Wedneſday laſt: That certain Spies ſent out were returned to the Camp, and reported, That a large Body of French and Indians were at Crown-Point, and by their Preparations, ſeemingly expected an Attack: That the French had ſtopt the Wood Creek to prevent our Forces paſſing that Way: That General Johnſon propoſed to make Lake Sacrament, inſtead of Wood Creek, being adviſed thereto by ſome of the Indian Chiefs; and for which Place he actually was to march the 23th of Auguſt, with 1500 Men, from Fort-Nicholls; and General Lyman, with the Diviſion under his Command, was to form the Rear, and to march the Day after.

Friday laſt Capt. John Seymour arrived here in 18 Days from Jamaica, who informs us, that the Day after he came out, he ſpoke with Capt. John Creighton, in a Schooner belonging to Kingſton, who acquainted him, that he had been chaſed by two French Sloops who were cruizing off Port-Morant, and that they had taken two Engliſh Snows outward bound. Soon after, Capt. Seymour diſcovered the two Sloops with their Prizes, one of which gave him Chace, but his Sloop being a prime Sailer, he got clear. Captain Seymour ſays farther, that he imagines the two Veſſels taken, belonged to Philadelphia, as a Gentleman in Kingſton had, the Day he ſailed, juſt received Advice from Port-Morant, of the ſailing of two Snows for that Place.

Friend in New-York, dated Auguſt 27, 1755.

Part of a Letter from a Gentleman in New-London, to his

------"*A few Days ago Capt. Heath arrived here from the Weſt-Indies, in whom came two Frenchmen, gaily dreſſed; they viſited the Town Battery, and entirely ſatisfying their Curioſity, as to our Situation and Condition,---read in the ſeveral News-Papers, the Accounts of General Braddock's Defeat, and drank a Health to the brave Fellows that defeated him. This Behaviour at laſt, gave ſome Offence to the Magiſtrates, and they were put in Cuſtody of a Conſtable Forty-eight Hours, after which they appeared before a Court of Juſtices, who, we hear, have ordered them to depart the Place the very firſt Opportunity.*"

As the following Letter from Albany, dated Auguſt the 14th, contains ſome few Remarks of the utmoſt Conſequence, when well obſerved; it is therefore thought proper to let the Public know them.

To the PRINTERS.

SOME Weeks ago as I paſſed by a Company of new Levies, who were exerciſing, commanded by an *Engliſh* Officer, with whom I had ſome little Acquaintance, I waited to ſee them exerciſe; the Captain told me for the Time they were pretty expert.----I who have ſome Experience in the *Indian* Wars, looked on with the utmoſt Concern; and when the Men retired, told the Captain we exerciſed our Men that were to fight againſt the *French* and *Indians*, in a different Manner.----*Pray Sir*, ſaid the Captain, *how is that?* Only to load quick, and hit the Mark, that is our whole Exerciſe.----*What! do you take Aim at the Enemy*, ſaid he? Yes, good Aim, or not fire, ſaid I. *So if an Officer appears*, ſaid he, *Twenty ſhall aim at him,---abſolute Murder!* You're not in much Danger of that, ſaid I; you will ſcarce find upon an Attack ſix *Indians* together, and you muſt divide yourſelves in ſmall Parties every where, to oppoſe the ſcattered Enemy.----*Quite abſurd*, anſwered he; *pray, do you think when a Body of Regular Forces keep Rank, and fire regular Platoons, that any irregular Attack can defeat them? It cannot be, Sir, you're certainly miſtaken, and here is my Orders*, ſaid he, (*pulling out a Card*) writ on the Back, *Keep Rank and fire Platoons; Sir, you ſee what I ſay is the Opinion of the Council of War.*----It was ſo indeed.----Witneſs O--o.

Pray let me acquaint theſe Gentlemen, who are Strangers to the *French* and *Indians*, that they require no Exerciſe, but to be perfectly acquainted with the Uſe of their Arms, that is, to load quick, and hit the Mark.----And for military Diſcipline, but this one Rule;---If they are attack'd by *French* and *Indians*, to ruſh to all Parts from whence their Fire comes, and if they can put their Guns to the Enemy's Breaſt, ſo much the better. The Gentlemen Officers from *Europe* will better underſtand me, when I inform them, they muſt fight the *French* and *Indians* in the ſame Manner they force the Trenches in *Europe*.

I have found by Experience one ſmart Fire, and ſome Execution, will effectually diſperſe both *French* and *Indians*.----It is an unpardonable Neglect of Duty to be ſurpriz'd by the *French*, when a few briſk Men ſcattered for two hundred Yards on each Side, will prevent it;----Keep them from ſurprizing you, and they are an eaſy Conqueſt."

I am, &c.

We ſhall add to the above Remarks, a new Piece of Policy made uſe of by General JOHNSON, in his March to *Crown-Point*:----He has made his *Indians* naked and painted, perform many mock Fights, with his other Troops, in the Manner of a real *Indian* Fight, except Lead in the Guns; by this Exerciſe he accuſtoms his Troops to be well acquainted with the *Indian* Manner of Fighting. A moſt prudent Thought indeed.

CHARLES-TOWN, in South-Carolina, July 31.

We hear, that laſt Sunday Night, the Houſe of Mr. *John Raven*, on *John's-Iſland*, was ſtruck with Lightning, altho' it had an *electrical Rod* fixed to one of the Chimnies, but the Houſe itſelf received no Damage from the Exploſion. This Accident, inſtead of invalidating the Uſe of *Points* for ſecuring Houſes againſt the Effects of Lightning, is a plain Proof of their Utility, and convinces us, that they do attract it, when the Atmoſphere of an *electrified Cloud* comes within the Sphere of their Action; and it is probable, in this very Inſtance, that the Houſe was thereby ſaved from greater Deſtruction, as the Force of the Shock was diverted to the Outſide of it: But we are convinced likewiſe, by this, of an Error in the Conſtruction of our Conductors, many Perſons depending on ſingle Wires for this Purpoſe, and thoſe very ſmall ones. This was the Caſe of Mr. *Raven's*, which conſiſted only of a ſingle Braſs Wire, about the Thickneſs of a large Pack-thread, which was not ſubſtantial enough to conduct the vaſt Flow of the *electrical Fluid* that entered thro' the *Points*, which paſſed along the *Iron Bar* without any Accident, until it came to the *Wire*, which it melted into many Pieces. The *Conductor* being thereby deſtroyed, the Lightning paſſed thro' the Outſide of the Chimney into the Fire-place within, where ſtood three fowling Pieces, running along the Barrels of which, it ſplit their Stocks and entered the Earth without doing more Hurt. The ingenious Mr. FRANKLIN, who firſt diſcovered that *Lightning* and *electrical Fluid* were the ſame, was aware of the Inſufficiency of ſlender Conductors, (for if, with a ſmall Bottle, the Leaf of any Metal may be melted, he concluded, that a ſlender Wire was not to be depended on, for carrying off the vaſt Flow which a Cloud of a very extenſive Surface might afford), and therefore adviſed, that a *ſubſtantial Rod* of *Iron* ſhould be continued from the *Bar* which ſupported the *Points*, into the *Earth*; which AMENDMENT *ought to be made* by thoſe who have not already *ſuch* Rods, and more eſpecially in the Country, where it may be ſuppoſed that *Lightning* will act with more Force than in Town where ſo many Points are erected, each of which may help to rob the Cloud of ſome Part of its Electricity as it paſſes over.

PHILADELPHIA, *Auguſt* 28.

By a Perſon juſt arrived from Oſwego we learn, that there are now four armed Veſſels belonging to that Port near finiſhed; the two largeſt are a Kind of Schooners or Brigantines, about Fifty-ſix Feet Keel, and carry Eight Sixpounders, and Twenty-four Swivels, each; the two ſmalleſt are Forty-two Feet Keel, of the Galley Kind, and carry Twenty-eight Swivels each. When General Shirley arrives, it is ſuppoſed there will be near 3000 Men at Oſwego. He was met on Tueſday, the Twelfth Inſtant, at the Carrying-Place, having with him about 300 Engliſh, and 50 Indians; and it was thought would not be at Oſwego before the Nineteenth, the Water being low. There are prepared for his Expedition near 600 Batteaus. There is great Plenty of Proviſions; and the Fortifications of the Place are greatly improved and enlarged. The French now paſs all on the other Side of the Lake.

From Halifax we have Advice, that a Letter was found on board the Packet, taken by Admiral Boſcawen's Fleet, from the French Admiral to his Court, adviſing, that his Men were very ſickly with the Small-Pox, Fluxes, and other Diſtempers, and in great Want of Proviſions; and that if he could get clear of the Engliſh Fleet, he would make the beſt of his Way back to Old France.

A Letter of the 9th of Auguſt from the ſame Place, mentions, that it is the general Opinion there, that all the Armies they could ſend from Great-Britain would not diſtreſs our perfidious Enemies the French ſo effectually, as the Colonies can do, by continuing to ſtop their Supply of Proviſions.

We hear from Fort Cumberland, that Lieutenant Savage having been out with a ſcouting Party towards the Great-Meadows, returned about the 20th Inſtant, and reported, that having met with ſome Friend Indians, he learnt from them, that the French were no ſooner in Poſſeſſion of General Braddock's Artillery, than they fell to work upon it, and burſt and deſtroyed the Haubitzers and Twelve-pounders, not attempting to carry off any Thing but the two ſmall Six-pounders; as they imagined the Rear under Colonel Dunbar was but at a ſmall Diſtance, and that our People would return and attack them afreſh, not imagining they had obtained ſo compleat a Victory.

In a Letter from Reading, dated the 25th Inſtant, there is Advice, that there were then ſeveral Families in that Town, on their Way to New-Jerſey, who had left their Habitations on our Frontiers; and that Forty more were expected ſome Time this Week, thinking it not ſafe to ſtay any longer, on account of the Scalping Indians.

On Tueſday John Myrack (mentioned in this Paper N°. 538) was tried at a Court of Oyer and Terminer at Cheſter for the barbarous Murder of his Wife, two of his own Children, and a Child that was nurſing in his Houſe, when he was found guilty, and received Sentence of Death.

At the ſame Court one M'Vaugh was convicted of an Attempt to commit a Rape; for which he was ſentenced to ſtand in the Pillory, and to be whipt 31, 25, and 20 Laſhes, at three different Times.

On Tueſday Night laſt we had a Guſt with very ſharp Thunder. The Lightning ſtruck two Houſes in Market-Street, and did ſome Damage to the Walls, &c. A Lad leaning over the Hatch of one of the Houſes, was ſtruck down by the Lightning; and a Woman and two Lads were alſo ſtruck down in the other Houſe, but they all ſoon recovered, and no Perſon was killed. It could be traced from the Top of the talleſt Houſe that was ſtruck to the Bottom, as conducted by an Iron Bolt, Shutter Hinges, and Saſh Weights, Rows of Nail Heads in the Lathing, a Window Curtain Rod, the Gilding on a tall Frame of a Looking Glaſs, and other metaline Bodies.

We hear that the Aſſembly of New-Jerſey have changed their Vote of 30,000 l. to an Act of 15,000 l. to keep their Troops full and effective.

Extract of a Letter from Winchester, dated Auguſt 28.

"Four Indians are killed in Auguſta. Eight of them attacked a Houſe, and cut a Hole in the Door, to fire in upon the Inhabitants, who were before hand with them, and killed one of the Savages through it; upon which they left the Door, and broke open a Place between the Logs, through which one of them introduced his Firelock. The People within rendered it uſeleſs by a Blow, and killed the Fellow, upon which the reſt fled. The other two were killed in a different Part of the Country. Laſt Friday two young Women were carried off the South Branch of Potowmack by the Indians; there are 200 Men in Purſuit of them."

From Virginia we hear, that the Governor has paſſed an Act for giving Forty Thouſand Pounds more, for maintaining Twelve Hundred Men to defend the Frontiers, and paying for Scalps at Ten Pounds each.

We have Advice from New-York, that the Cagnawaga Indians have declared in Favour of the French.

We hear alſo, that the Connecticut Government have ordered Two Thouſand Men to reinforce General Johnſon, and intend to raiſe them with all poſſible Diſpatch.

THE Public are caution'd to be aware of ſome Counterfeit Bills, in Imitation of the Twenty Shilling Bill of this Province, as ſome of them may poſſibly be now paſſing. They differ from the true Bill in the Coat of Arms, the falſe ones being much coarſer in the Strokes, than the true Bills; and the Motto in the falſe Bills being hardly intelligible; the Boots on the Fiſherman in the Arms of the falſe Bill appear much whiter than in the True, the ſhading Strokes being much more diſtant from one another than in the true Bill; the Letters in general thro' the falſe Bill appear larger and coarſer than in the true Bill; the Letter Y, in the Word TWENTY at Top, in the falſe Bill, is ſhallower in the opening, and longer in the lower Part, than in the true Bill; and there appears more white in all the Letters in the Word TWENTY, in the falſe Bill, than in the True; the Aſteriſm after XX. S. at the Bottom is much larger than in the true Bill; the Signers Names are done pretty well; the Paper of the falſe Bills is thicker and coarſer than the True; and the Word MARYLAND at the Bottom of the Bill, is mark'd on the Back, inſtead of being ſtamp'd in the Paper as all the true Bills are.
